"The Tarot is sacred"

ALEJANDRO
JODOROWSKY

How can I help?

Tarot is an ancient self-development tool. Even Jung, the world famous psychoanalyst, recognized it.

Combining this with my intuitive gifts, I will team up with you to seek solutions and help you tune in with your Higher Self, Inner Wisdom, and Deepest Truth.

What is Tarot Coaching?

TC combines both coaching and tarot in a very unique way: the cards are used for self-improvement and self-development.

How does it work?

The Tarot offers us a way to tap into our intuition thanks to its archetypal imagery and universal human experiences. This in turn gives us clarity and insights on different life situations so that we can move forward.

Do I make time-based predictions?

No. My readings can only offer you guidance about what has been holding you back in life and how you can set yourself up for better outcomes.

Got a question?

Text me and I will call you back.
